

FLAP TABLE TD SERIES

FLAP_pable MOVE_able NEST_able

TD-1860B

TD-1860W

The TD table is equipped with a brake system to keep the table from moving. The brake system is released automatically when the table is flipped up for storage.

Even when in use, the brake system can be released easily by pushing down the brake release lever.

The brake system engaged

The brake system released

The storage duct below the table top can hold the power and LAN cables.

Designed for space saving

● Top board color choice

B : Brown

W : White
